

First Year Orientation Program 2026

The Department of Computer Science & Applications (C.S.A.), St. Joseph's College, successfully organized the First-Year Students' Orientation Programme on 28th July 2026 in the Department Seminar Hall.

We were delighted to welcome our newly admitted students and their parents. This year, students have joined our department from different parts of India, including Jharkhand, Odisha, Bihar, and Haryana, reflecting the diverse and vibrant learning community of our department.

The programme was graced by Dr. Pathik Roy, Vice Principal (Academic) and Fr. Dr. Sanjiv Lakra, Director of Self-Financed Courses, who addressed the students and inspired them to pursue academic excellence, discipline, and holistic development.

The faculty members of the department interacted with the students and their parents, explaining the department's rules and regulations, academic curriculum, higher education opportunities, various clubs and activities available in the college, and the importance of co-curricular and extracurricular participation.

The highlight of the programme was the comprehensive departmental presentation delivered by Ms. Pranita Mukhia, Head of the Department, who introduced the faculty members and provided an overview of the department's laboratories, library facilities, academic resources, and student support systems.

We sincerely thank all the parents, students, faculty members, and distinguished guests for making the programme a grand success. We wish our new students a wonderful academic journey filled with learning, innovation, and success.
