JAPAN

Report on “Employment Opportunities and Scholarship Programs for Graduate Students in the field of IT and other industries”

The Career Guidance Seminar, "Employment Opportunities and Scholarship Programs for Graduate Students in the field of IT and other industries," was held on the 21st April 2023. This seminar was conducted in collaboration with the Hanabi Institute of Japanese Language and Culture. The seminar was aimed at providing guidance and counseling to graduate students in the field of IT and other industries about the employment opportunities available to them, as well as scholarship programs that could aid them in furthering their careers.

Seminar Details:

The seminar was opened with welcoming address by Fr.C.Pargasan,SJ, Director, followed by watering the plant by the recourse persons, head of the department to spread green message. The seminar started at 11:00 am and lasted for two hours. The seminar was divided into two parts. The first part was a series of presentations by experts in the field of IT and other industries as well as in the Japanese language. The second part was an interactive session, where students were

given the opportunity to ask questions and interact with the experts. The seminar was well attended, with over 104 graduate students in attendance.

Topics covered during the seminar included:

1. Emerging trends and career opportunities in the field of IT and other industries.
2. Scholarships available to graduate students.
3. Tips for writing successful scholarship applications.
4. Job search strategies for graduate students.
5. International opportunities for students in the field of IT, management, Media etc.
6. Detailed courses offered by KCG College Japan, Hanabi Institute of Japanese Language & Culture.

The Career Guidance Seminar was a resounding success, with students giving positive feedback about the seminar's organization and content. Several students expressed their appreciation for the opportunity to interact with experts in the field and gain insights into emerging trends and career opportunities.

The seminar provided students with valuable information about scholarship opportunities and career opportunities available to them in Japan. This information is expected to help students secure scholarships that will aid them in furthering their careers.

The Career Guidance Seminar, "Employment Opportunities and Scholarship Programs for Graduate Students in the field of IT and other industries," was a valuable and informative event.

The seminar was successful in providing guidance and counseling to graduate students in the field of IT and other industries about the employment opportunities available to them, as well as scholarship programs that could aid them in furthering their careers. The seminar's organization and content were highly praised, and the event is expected to have a positive impact on the careers of the students who attended.

The Career Guidance Seminar ended with vote of thanks by Mr. Jayanta Loha, HoD, Dept. of Computer Sc. & Application.
