EXAMINATION UNDERFYUGP 2024  
VAC-ENVIRONMENTAL EDUCATION  
FIELD REPORT  
REG.NO: 0112412030454

## Report

### An clearing a nearby Public Place.

Date - 11/11/24

Location - Lloyd's Botanical Garden, Darjeeling,  
West Bengal.

Area - 16 hectares (40 acres)

#### Aims and objective -

- The main objective was to clean the place and restore its natural habitat.
- To maintain its natural beauty and create an awareness for the clean environment.

Team members - 37 students from I Sem  
of zoology department.

## Introduction

The public areas like parks, gardens etc which are in constant view/ frequented by guest/ visitors, we focus on. A neat and clean public area shows the cleanliness standards of the entire property because public area is the area first seen by the guest. In the pursuit of fostering a pristine and environmentally sustainable community space, our initiative focuses on the cleaning and restoration of a nearby Picnic spot or Public place.

Recognizing the importance of maintaining such areas for recreational enjoyment, we have established a comprehensive program that involves regular supervision, cleaning and meticulous record-keeping. The objective is to ensure the cleanliness and ecological integrity of the picnic spot or Public place through periodic cleaning efforts. This initiative
