## Notice

Dear Students,

A warm welcome back to St. Joseph's College, Darjeeling! We hope your winter break brought renewal and energy for the even semester, beginning on Monday, 16 February 2026.

This semester is shorter than the Odd Semester, so it requires focused discipline to complete the syllabus on time. Mandatory regular attendance starts on 16 February and will impact your exams and evaluations. In the Jesuit tradition, attendance reflects Magis - striving for holistic growth in intellect, character, and service. Aim for 100% attendance from day one. Only limited cultural events, sports, and outreach programs will be organized - participate wisely, prioritizing academics over distractions. Make full use of the **Central Library** for your studies.

Reach out to your professors anytime for help with your studies or personal issues. They're fully here for you, eager and committed to supporting your pursuit of knowledge, guiding you toward academic success and personal growth in our Jesuit spirit of care and excellence.

Best wishes for a productive semester that builds skills, strengthens bonds, and fosters purpose. Rise with focus and joy - may God's blessings guide you.

Thanking you.
